CALVIN KLEIN

Pink Pilates
Joseph Pilates invented the form of exercise that takes his name during WW1 to help bed-ridden patients. Fast forward to Auckland 2006 and Lou James is using it to help breast cancer patients at her Ponsonby studio, Re:Ab. Called Pink Pilates, the 10-session course is half-subsidised for all women within two years of their diagnosis. Similar programmes have been proven overseas to significantly boost the strength of breast cancer recoverers, both physically and emotionally. Ph (09) 361 1078 for more details.
